### McMILLEN ENGINEERING INC. CELEBRATES 40TH ANNIVERSARY WITH BRAND UPDATE

McMillen Engineering Inc. has been providing civil engineering and land surveying services in Southwestern Pennsylvania since 1977, when the company was founded by Terry E. McMillen, Sr.

Terry is a graduate from West Virginia University, where he earned a Bachelor of Science Degree in Civil Engineering. He is a Registered Professional Engineer and a Registered Land Surveyor. Terry and his wife, Denise, tirelessly dedicated themselves to growing the business, which focused primarily on civil engineering and land development in the beginning.

Initial projects included of a variety of residential developments. As the business grew, projects included commercial/light industrial; then large retail developments.

Over the years, services were expanded to include infrastructure, design of sewage treatment plants, sewerage collection and water distribution systems, structural design, environmental engineering and traffic engineering.

“This is an exciting time for us. As we look back at past projects and review the projects of today, we foresee a fruitful future for McMillen Engineering Inc.”, says Terry E. McMillen, Sr.

Terry McMillen Jr. began his career with McMillen Engineering Inc. in 1986 as a part-time surveyor. He is a Registered Professional Land Surveyor and holds an Associate degree in Engineering Technology from Penn State University. Terry steadily grew his career at McMillen Engineering Inc. since 1986 and currently serves as the Vice President. Terry also served four years in the United States Marine Corp.

“The fortieth anniversary seemed like a good time to review our logo and corporate identity to determine whether or not we needed to make any updates”, said Terry McMillen Jr. “We’re very pleased with the results from the review process. We have a strong brand image to take us through the next forty years.”

The launch of the new corporate identity also included the identification of the McMillen Engineering Inc. core values: Professionalism, Integrity, Precision and Loyalty. “We pride ourselves on our commitment to deliver quality services, respect our employees and give back to our community. These core values are a reminder for us all that these are the founding principles that brought us through the past forty years and will carry us through the next forty years,” said Terry E. McMillen Sr.

“We’re fortunate to have a dedicated team at McMillen Engineering Inc. They are the driving force behind the success of each of our projects”, he added.
